# Advancing Telemedicine
Next Steps Toward Standards and Interoperability

December 13, 2006
Natcher Center
NIH Campus
Bethesda, Maryland

Want to help develop a public/private partnership to address the standards and technical needs of the telemedicine community?

Registration:
http://www.nist.gov/public_affairs/confpage/

Technical Contacts:

Paul Boynton
301-975-3014
paul.boynton@nist.gov

Kamie Roberts
301-975-2982
kroberts@nist.gov

co-sponsored by:
National Institute of Standards and Technology
NIST U.S. Measurement System Project
American Telemedicine Association
National Library of Medicine

Bringing together the telemedicine community and federal agencies to:

- **Address standards and guidelines that help make telemedicine an integral part of health-care**
- **Chart a path for future public-private partnerships to foster continued collaboration and success.**

Who should attend:

- Healthcare providers
- Technology and telecommunications researchers and developers
- Academicians and representatives from academic medical centers
- Representatives of medical societies, professional organizations and consortia
- Researchers in e-health
- Government agency representatives
- Vendors
- Standards development organizations
- Consumer*s*
